

NATIONAL RIFLE ASSOCIATION

PHOENIX MEETING 2016

An Annual Celebration of
Shooting Sports

27 to 29 May 2016

National Shooting Centre
Bisley

GENERAL RULES AND INFORMATION

The rules of the National Rifle Association, as published in the 2016 Gallery Rifle & Pistol Handbook (available for download from the NRA website) and the 2016 edition of the Rules of Shooting (the Bisley Bible), will apply. The decision of the Meeting Director will be final in all matters.

ACCOMMODATION

If you require accommodation at Bisley, please apply directly to the NRA, preferably by email to accommodation@nra.org.uk. If this is not possible please call 01483 797777, extension 135.

AMMUNITION

Please use lead or fully jacketed, and not hollow or soft point, ammunition. Otherwise, you risk disqualification. Competitors must be able to show that any ammunition they use complies with the definitions of non-expanding ammunition set out in the Firearms Acts.

Centrefire ammunition must comply with the range safety certificate but only target loads are needed at the shorter ranges up to 50 metres. Excessively noisy ammunition can be intrusive for other competitors. Please bear this in mind before making or purchasing ammunition.

Magnum, armour piercing, high velocity or jacketed rounds are not permitted on steel plate targets. Limits on power and speed will be enforced. These will apply to both Centrefire and Smallbore; random testing with a chronograph will take place on the range. Failing this test will result in disqualification. The limits are as follows:

Centrefire: (lead bullets only)

Bullet weight over 200 grains: maximum velocity 1000 feet per second

Bullet weight 200 grains or less: maximum velocity 1200 feet per second

Smallbore: maximum velocity 1300 feet per second

If you require ammunition or firearms hire please apply directly to the NRA, preferably by email to armoury@nra.org.uk. If this is not possible call 01483 797777, extension 134. To hire firearms you must be a full member of the NRA.

CLASSIFICATIONS

If a competitor starts a meeting with a classification in any of the following events, it will not alter until after the meeting. Events 07xx, 09xx, 11xx, 13xx, 15xx, 17xx and 19xx.

There is no 'unclassified' class. Each event has a separate classification and a previously unclassified competitor in any of these events will automatically be classified according to the score achieved on the day.

If you are unsure about your classification or Gallery Rifle ID number (GRID) you can check it via the on-line database at <http://galleryrifle.com> or via the NRA. Please contact the NRA at galleriesquadding@nra.org.uk.

DRESS CODE

Please refrain from wearing red items of outer clothing. This colour has been reserved for the Range Officers to make them clearly identifiable on the range.

INTERNATIONAL AND CLUB TEAMS - PHOENIX MEETING

International team events are open to teams of five shooters nominated by a recognised national shooting organisation in their own country or from recognised local club teams respectively. 'Scratch' teams with members from different nations or from different clubs (for club teams) are specifically not permitted. The team entry must be made and the team members declared before the start of the meeting. Each shooter must enter the appropriate individual event; the score will carry forward to contribute to the overall team score (i.e. the event is not shot separately for a team score). The top four scores will count. Each member of the team can shoot at any time during the meeting. Gold medals will be awarded to all members of the winning team in each event only. There are two international and club team events in the Phoenix Meeting. One is an aggregate of Timed & Precision 1 GRSB (0701) and Multi-Target GRSB (1101); the other is an aggregate of the two equivalent GRCF events (0702 & 1102).

EVENT DESCRIPTIONS

A description is provided later in this booklet for each event being shot at meetings in 2016. For those events which appear in the GR&P Handbook, the courses of fire are not duplicated in this booklet.

FIREARM CONTROL

All firearms are required to conform to the conditions specified for each event. For these conditions, please refer to the details given in the NRA GR&P Handbook and in this booklet or to general rules published for specific disciplines. If there are any apparent conflicts between conditions, this booklet will take precedence.

FIREARM DEFINITIONS

The standard definitions of Light Sport Rifle, Long Barrelled Revolver, Long Barrelled Pistol, Gallery Rifle Centrefire and Gallery Rifle Smallbore, as laid down by the NRA in the 2016 GR&P Handbook and in the 2016 edition of the NRA Rules of Shooting (the Bisley Bible), apply at these meetings.

All shotgun events at the meetings require the use of a Section 1 shotgun and solid slug ammunition (only). A magazine capacity of at least 6 rounds is recommended.

If you are in any doubt as to the eligibility of a particular firearm, you are strongly advised to contact the NRA before the meeting. Areas which may need clarification include types of sights, artificial aids to shooting, types of action, eligible calibres etc.

FIREARM SAFETY

The NRA firearm safety rules, as published in the 2016 GR&P Handbook and the 2016 Bisley Bible apply at these meetings. Anyone breaching these rules will be subject to the disciplinary procedures laid down in the 2016 GR&P Handbook.

FIRST AID

An ambulance and first aid facilities will be provided in the central area of National Shooting Centre and can be contacted through any Chief Range Officer or NRA Control.

MUZZLE LOADING - PROPELLANTS

Some events are open to firearms using any propellant for which the firearm is appropriately proofed. If your firearm is proofed for black powder only and is a modern reproduction or is of modern design, you may only use 'Pyrodex' if this is in accordance with the guidance given by the manufacturer of the firearm. If you are using an original firearm then black powder must be used unless the firearm has been re-proofed for modern nitro powders. You may be prevented from using any firearm or load if either is, in the opinion of the Chief Range Officer, unsafe.

You may only use smokeless propellants if your firearm is nitro proofed.

PHOENIX INTERNATIONAL MATCH

On Melville on the Monday, teams of five from the UK, Germany, the Republic of Ireland and the Republic of South Africa will compete in the Phoenix International Match. The competition will consist of a full 1500 GRCF and GRSB. Those of you selected for the teams will know you have been selected by the time you read this booklet, as will those who are to be range crew for the event. Anyone else who wants to come along and support their team is more than welcome. The competition starts at 08:30 and finishes at about 12:00, following which there will be a prizegiving in the ATSC Clubhouse.

PHOTOGRAPHY

Please do not take photographs or videos on the ranges without first asking permission of the Chief Range Officer and the people in the picture.

Professional photographers must be in possession of a 'Photography Permit', which is obtainable through the NRA Reception.

PRACTICE AND ZEROING

There will not be any ranges specifically available for practice purposes but zeroing facilities will be made available on Melville Bay A at 50 metres. A target face provided by the competitor may be used so long as it is not of a design used in any of the events at that meeting. A session will allow ten minutes for a competitor to zero a gun and cost £1. Pay on the range and sign in and out with your name and times. You may not case your gun(s) or leave the range without the permission of a Range Officer.

PRIZES AND TROPHIES

Meeting medals will be awarded to first, second and third places in each event subject to entries. If there are five or fewer entries only a gold medal will be awarded. If there are six to ten entries a silver medal will be awarded. If there are more than ten entries a bronze medal will be awarded. Should there be only one entry in any event or class no medal will be awarded

Medals will be awarded by class for classified events (see CLASSIFICATIONS above).

There are also trophies to be awarded to the winners of some events.

The prize giving will be held at 1800 on the Sunday of the Phoenix Meeting and the GR&P National Championships Meeting. Gold medals, trophies and prizes will be awarded; silver and bronze medals will be sent out by post.

RANGE COMMANDS

To reduce potential confusion on range, range commands have been standardised as far as is practical. The default range commands are as follows:

1. 'LOAD AND MAKE READY'
2. 'ARE YOU READY?' Silence will be taken as agreement – any competitor who is not ready should call 'NOT READY' and raise one arm, after which the Chief Range Officer will confirm 'NOT READY CALLED' and wait for the competitor to sort things out before proceeding with another call of 'ARE YOU READY?'
3. 'STAND BY'
4. A few seconds later, the event will start. This will be signalled by the facing of turning targets, a whistle, a hooter, or some other signal as briefed by the Chief Range Officer.
5. 'STOP, STOP, STOP' On hearing this command – at ANY point during the event – the competitor must cease shooting immediately, continue to point the gun in a safe direction, and wait for further instructions.
6. 'UNLOAD AND SHOW CLEAR'

Any variation to these range commands will be explained by the RO while briefing the course of fire at the start of the detail.

RANGE REPORTING TIMES

For squadded events, competitors must report to the range at least 10 minutes before the time indicated on their squadding notice. Details will start on time and no competitor will be permitted to join a detail after the event has started. Competitors are expected to shoot on the detail on which they are squadded - if you miss this detail it will be up to the Chief Range Officer whether you are allowed to shoot at a later time.

RECORDS

Phoenix Meeting Records are shown for all events, except where event conditions have changed in the current year. Phoenix Records [PR] and National records [NR] are indicated although these are only maintained for the classified events.

RE-ENTRIES

Second entries, re-entries, etc, may be permitted but only if there is available range space after having shot your match. The score on the first entry will be the only one to count. Re-entry scorecards will be available from Reception. Some events, (eg McQueen, Steels) allow for multiple re-entries to achieve a higher score or faster time for the event and these may be made on the range or at reception.

REFUNDS

Entry fees will be refunded, less an administration fee of £5, if written notice of cancellation is received at the NRA one week prior to the meeting for Spring Action Weekend, GR National Championships and Autumn Action Weekend.

Phoenix refund requests must be received three weeks prior to the meeting.

Any requests for refunds after these dates are at the discretion of the Meeting Director.

REGISTRATION

Whether or not you have sent in an entry form before a meeting, please make Reception in the NRA main building your first point of call on arrival. There your Shooter Certification Card and Firearms Certificate will be checked and you will be given your scorecards.. No competitor will be allowed to take part in any event without appropriate scorecards. If you have not sent in an entry form before the meeting, you will be required to sign a declaration before being allowed to shoot. If you want to enter more events or enter on the day, an early visit to Reception will increase your chances of getting a place.

SAFETY

There is no room for compromise on safety issues. All competitors are required to wear hearing and eye protection (unless otherwise stated in individual event conditions). Spectators are strongly advised to do likewise and will be required to wear them within certain clearly marked areas. The NRA will not be liable for any injury sustained through the lack of appropriate protection.

SCORECARDS, STATS AND CHALLENGES

A scorecard will be issued for each event entered. The majority of scorecards require only that the number of hits of each value be recorded – calculation of actual scores will be carried out by Stats. The Stats portion of each card must be completed, signed by both the competitor and a witness, and handed to the RO for submission to Stats. When a competitor feels that a shot fired by themselves or by another competitor has been improperly evaluated or scored, they may make a challenge. Such a challenge must be made immediately upon announcement of the score and resolved on the range.

Interim results will be posted on the scoreboards adjacent to NRA HQ throughout the meetings. Challenges to scores in the Interim results can be made at any time through Reception. Provisional results will be posted for each event once it has closed and all scorecards have been input. A time limit will be shown for challenges to Provisional results, after which the Final results will be posted and no further challenges will be accepted.

NB All competitors MUST ensure that their name and competitor number are printed clearly in the appropriate boxes on each scorecard – every year Stats is forced to throw away unidentifiable scorecards.

All scorecards are colour-coded according to gun type. The aim of this is to make it easier for you to pick out the correct scorecard when you are shooting the same competition with more than one gun type.

STANDARD MEDALS - PHOENIX MEETING

Gold, silver and bronze standard scores are set for most events at the Phoenix Meeting. A competitor will be eligible for a Grand Master standards medal on accumulating a minimum of 20 points at an individual meeting.

Gold standard:	5 points
Silver standard:	3 points
Bronze standard:	1 point

Grand Master medals will be posted out to competitors after the meeting.
